

# EUROPEAN BUSINESS DEVELOPMENT

CAP-XX is the world leader in supercapacitors and energy management systems. Our product range is the widest of any company and covers the smallest supercapacitor applications, with thicknesses of only a few microns right up to large systems for wind farms, renewable energy installations and heavy transportation.

## **About the Role:**

We are currently looking for an experienced business development executive to join our European Team.

The successful applicant will be responsible for CAP-XX's sales of our large CAPMOD modules and our Truck Start Modules in Europe, Middle East and Africa

See [www.CAP-XX.com](http://www.CAP-XX.com)

Previous success in developing and closing sales in similar products and end markets will be highly regarded

We are flexible on the location of the successful candidate

## **This position will offer:**

- Above industry package
- Uncapped sales commission
- Solid job security with a long-term employer
